

## **Souderton Charter School Collaborative 6th Grade Mathematics and Science Teacher**

**POSITION:** 6th Grade Mathematics and Science Teacher

In our sixth grade Seasons program, the cycles and events that occur in the natural world throughout the year inspire our primary themes of study: metamorphosis, migration, survival, adaptation, renewal and growth. These units stretch across content areas and allow students to construct real world understandings through a combination of direct instruction, research, investigations and project work. You will have the opportunity to harness student curiosity by leading authentic, community-based fieldwork experiences that deepen student thinking while developing a sense of place and stewardship.

---

**ABOUT THE ORGANIZATION:** Founded in 2000, Souderton Charter School Collaborative is an award winning free public charter school located in Souderton, Pennsylvania, which serves students in kindergarten through grade eight. SCSC is recognized as a Teacher Powered School in which teachers actively participate in collaborative leadership. The school was founded on an inclusive model of learning that fundamentally believes that all children learn best together in an environment grounded in respect, high expectations, and meaningful work. SCSC integrates hands-on project-based learning with a focus on the development of the whole child and individualized learning. The mission of SCSC is for all students to leave performing at a proficient or higher level in all academic areas and having the necessary character traits and interpersonal skills to excel in a diverse, inclusive, dynamic world.
